An ISO/IEC 17025:2017, BIS & ISO:9001:2015, 14001:2015, 45001:2018 Accredited Laboratory

About Us

QA Testing Laboratories (QATL) is a Product/Material Testing Laboratory to identify Chemical, Mechanical and Physical Properties of Products such as Coal, Food and Agriculture, Plastic and Polymer Products, Garments, Drugs and Cosmetics, Road and Soil, Water (Waste Water, ETP/STP Water, Drinking Water, Construction Water), Environment (Air, Noise, Lux, Stack) and Building/Construction Material. We offer Accurate, Cost Effective Analysis in Accordance with Indian and International Standards. We are equipped with latest & Advanced testing Equipment's and Facilities with Experienced & Competent Person.

Our Vision

To be the trusted partner for Quality Assurance in field of testing.

Our Mission

We will provide reliable and accurate results, using Innovative solutions, through affordable analytical Testing.

Quality Assurance

Quality Assurance program ensures customers data meets national as well as international quality standard. We monitor quality through participation in various ILC (Inter Laboratory Comparison) and proficiency testing. Our labs use concepts of Total Quality Management System (TQM), which continuously refines laboratory processes based on continuous quality feedback and single window for customer's query.

- Training of personnel especially analysts
- Maintenance and calibration of equipment
- Standardization and adoption of analytical methods
- Quality control measurement procedures
- Modern equipments and testing facilities and infrastructure.
- Certification & Accreditation
- Internal and external proficiency programs
- Laboratory Information Management System (LIMS)

National Accreditation Board for Testing and Calibration Laboratories

CERTIFICATE OF ACCREDITATION

QA TESTING LABORATORIES PRIVATE LIMITED

has been assessed and accredited in accordance with the standard

ISO/IEC 17025:2017

"General Requirements for the Competence of Testing & Calibration Laboratories"

for its facilities at

B-76, SECTOR 64, NOIDA, GAUTAM BUDDHA NAGAR, UTTAR PRADESH, INDIA

in the field of

TESTING

Certificate Number: TC-8586

Issue Date: 07/03/2021 Valid Until: 06/03/2023

This certificate remains valid for the Scope of Accreditation as specified in the annexure subject to continued satisfactory compliance to the above standard & the relevant requirements of NABL.
(To see the scope of accreditation of this laboratory, exercise site visit NABL website www.nabl-india.org)

Certificate of Registration

(Occupational Health & Safety Management System)

KVQA CERTIFICATION SERVICES PVT. LTD.

This is to certify that the Occupational Health & Safety Management System of

QA TESTING LABORATORIES PVT. LTD.

B-76, Sector-64, Noida- 201301, U.P., India.

Has been found to be of the Occupational Health & Safety Management System Standard

ISO 45001:2018 (OH & S)

This certificate is valid for the following product or service range

Testing and Analysis of Coal, Petroleum Products, Food & Food Products, Drinking Water, Water, Waste Water, Ambient Air, Process Emission, Noise Monitoring & Building Materials Products.

Certificate No: IOSC201911001
Date Of Issue: 08, November, 2019
Valid Until: 07, November, 2022*

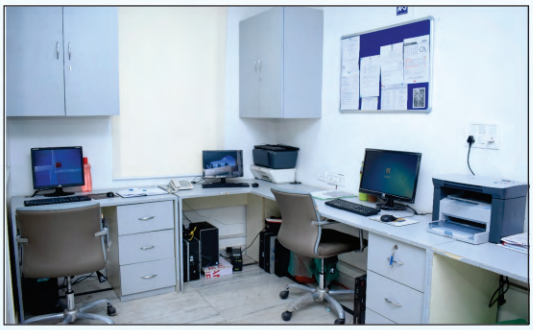
Customer Service

QATL has dedicated quality assurance departments which independently handle customer needs and also provides reliable analysis in the field of testing by fulfilling customer demands.

We have computerized and automated the critical functioning right from sample booking to computation of analytical data and report processing which greatly reduce factor of human error, ensuring greater reliability in analytical results. At QATL quality & dependability and reliability is defined in terms of various operational & functional parameters catered with standardized specializations depending on customer needs. Our reliable testing is monitored by internal quality assurance departments and our comprehensive SOP's provide the frame work that assures reliable services with the highest standards to our Valuable Customers.

LIMS (Laboratory Information Management System)

We in QA Testing follow laboratory information management system (LIMS) which is a software system developed to support laboratory operations. This software system can track specimens and workflows, aggregate data for research or business intelligence purposes, and ensure laboratory operations are completed with various standards and regulations.



Modern Equipments and infrastructure

QA Testing laboratories are well equipped with state of the art machinery and equipments. The tests are profound on modern machinery by highly qualified analysts with best infrastructure in class.

Your Success is Our Priority

- Understand the quality of product and its composition.
- Identify physical and chemical properties of products.
- Meet government and regulatory body requirement.
- Meet Customers' requirements.
- Identify the defects in the products.
- Identify and Understand product life cycle.
- Monitor potential threats from competing products.
- Selecting appropriate market and industry.
- Identify Performance, Functionality, Durability and Reliability and Safety.

Our Services

QA Laboratories offers accurate, cost effective chemical analysis in accordance with American Society of Testing and Materials (ASTM), International Standards Organization (ISO) & Indian Standard for specific registered tests.

1. ***Coal, Coke and Petroleum Products Testing***
   - Proximate Analysis & Ultimate Analysis
   - Boiler Drum
   - Total Moisture (As Received Basis, on Dry Basis, Equilibrated Basis)
   - Gross Calorific value
   - Fly Ash
   - Diesel
   - Petrol

2. ***Food & Agriculture Products Testing***
   - Bakery and Confectionary Products
   - Milk & Dairy Products
   - Tobacco Products
   - Cereal, Pulses & by Products
   - Starch and Starchy Products
   - Food Additives
   - Stimulant Food
   - Spices and Condiments
   - Chemical Food (Pesticides)

3. ***Water Testing***
   - Bore well Water
   - Tube well Water
   - Process Water
   - Portable and Domestic Water
   - Drinking Water
   - Soft Water
   - Water for Construction
   - Waste Water
   - Industrial Effluent & Domestic Effluent

4. ***Environment Testing***
   - Stack Emission
   - Ambient Air
   - Fugitive Emission
   - Noise
   - Lux Level
   - Atmospheric Pollution
   - Source Emission
   - Auto Exhaust Monitoring
   - Physical Analysis

5. ***Building Material and Construction Products Testing***
   - ***Mechanical Test Scope***
     - Cement
     - Bitumen
     - Bricks (Fly Ash, Lime & Sewer)
     - Tile
     - Building Chemicals
     - Concrete Block for Paving (Paver Block)
     - Building Stone
     - Mortor
     - Designing of Concrete
     - NDT Test
     - Fly Ash
     - Bitumen & Allied Materials
     - Thermo Mechanical Treatment (TMT Bar)
     - High Strength Deformed steel bars for concrete reinforcement
     - Road & Highways
     - Soil
     - EMB/SG/Borrow Area
     - Granular Sub Base (GSB)
     - Wet Mix Macadam (WMM)
     - Emulsion (SS-1 & RS-1)
     - Bituminous Macadam (BM)
     - Dense Bituminous Macadam (DBM)
     - Bituminous Concrete (BC)
     - Dry Lean Concrete (DLC)
     - Pavement Quality Concrete (PQC)
   - ***Chemical Test Scope***
     - Cement
     - Bituminous Asphalt, Tarfelt and allied Products
     - Steel & TMT Bar Aluminum and aluminum alloys and bars, rods
     - Metallic Coating & Treatment Solutions
     - Fly Ash
     - Stone Aggregate
     - Leaded brass products
     - Soil

6. ***Garments Products Testing***
7. ***Drugs and Cosmetic Products Testing***
8. ***Metal and Plastic Products Testing***
9. ***Paper & Board Products Testing***
